

Protect Your Business From Cybersecurity Threat at BPM-Sponsored Event

09.18.19

BPM's David Trepp, Partner in Charge of our Information Security Assessment Services Group, will discuss some of today's best practices for protecting businesses from cybersecurity threats.

The North Bay Business Journal's Cybersecurity Summit for Business will take place on September 18 at Hyatt Regency Sonoma Wine Country.

The event will focus on how businesses and organizations of all sizes can protect their enterprises from cyber threats and how to prepare to comply with the California Consumer Privacy Act by next year.

Speakers include:

- David Trepp, M.S., Partner, IT Assurance, BPM
- Ryan Donham, Information Technology Dept. Head, Empire College
- Eric Edelstein, Chief Technology Officer, iWorkGlobal
- Tony Guerrero, Partner, George Petersen Insurance Agency
- Soni Lampert, CEO, KLH Consulting

BPM is sponsoring the North Bay Business Journal event. [Click here for tickets.](#)

BPM for Information Assessment Security Services

BPM's Information Security Assessment Services Group understands how to balance information security and business needs. The Firm performs a variety of tests and reviews, including the Comprehensive Penetration Test and Information Security Program Review, to identify vulnerabilities in a client's IT infrastructure, allowing companies to make well-educated decisions on where to best allocate resources.
