

Webinar: Risk Mitigation and Practical Considerations

04.17.20

It is safe to say the impact of COVID-19 has been among some of the most challenging and emotional experiences that we will remember in our lifetimes. As companies around the world transition to long-term teleworking policies for staff and customers, they must also be prepared to ensure business compliance and manage the security risks that come with this “new normal.” Join us for an informative session as we share best practices and actionable solutions around risk mitigation strategies

Date: Friday, April 17, 2020

Time: 10:00 a.m. – 11:00 a.m. PT

Location: Online Webinar

Speakers:

Sarah A. Lynn
Advisory Partner

Sarah has over 17 years of advisory experience and is an expert in her field. She has worked at many high tech firms throughout the years, such as Cisco, WebEx, Lucent and IBM. Sarah works with a variety of customers, both domestic and global, that require specific expertise when compliance and regulations transform into unexpected levels of security. Sarah's expertise in the certification and authorization processes, control requirements and security monitoring capabilities enable her teams to prepare customers for the transformation ahead.

David Trepp
Information Security Assessment Services Leader & IT Assurance Partner

A technology entrepreneur since 1989, David has led over 1,400 information security penetration testing engagements for satisfied customers across all major industries throughout the United States and abroad. He has given dozens of presentations to audiences nationwide, on a variety of information security topics. David has worked in information security with commercial, healthcare, government, financial, utility, law enforcement and nonprofit organizations since 1998.
