Eugene, Oregon 97401

**Overview**

A technology entrepreneur since 1989, David has led over 1,400 information security penetration test engagements for satisfied customers across all major industries throughout the United States and abroad. He has given dozens of presentations to audiences nationwide, on a variety of information security topics. Prior to joining BPM, David was founder and CEO of Info@Risk, a leading comprehensive penetration test firm. David has worked in information security with commercial, healthcare, government, financial, utility, law enforcement and nonprofit organizations since 1998.

Interesting Tidbit

David regularly puts his risk assessment and management expertise to real world tests as an avid rock climber and cyclist.
