Jargal has nearly 15 years of accounting experience and is a Tax Manager in BPM's San Francisco office. She works with international tax clients on inbound tax planning, consulting and compliance work for foreign-based investors and individuals.

In the past, Jargal has helped expatriate clients reinstate their compliance with offshore financial asset and account reporting. She also has experience consulting clients regarding the transfer of U.S. situs assets from foreign parents to their U.S. children.

Her client base includes a wide variety of multinational companies, one of which was established in the 1800's.
