

# Michael Sellai

**Partner, Managed IT Services**

**San Francisco**  
600 California Street, Suite 600  
San Francisco, California 94108

## Overview

Michael has nearly 20 years of Information Technology experience and is a Partner in BPM's San Francisco office. He helps clients manage, maintain and upgrade their Information Systems. Michael has experience consulting with small and medium-sized companies to find the right Managed IT services for their business. He also assists larger companies with IT support and services. Today, Michael leads BPM's Managed IT Support team and works with a group of network engineers and system administrators to install and maintain clients in a wide variety of industries.

In the past, Michael has helped a client with 300 employees automate the onboarding of employee computers and application delivery. He also upgraded a Metropolitan Area Network for another client by installing an outdoor wireless network consisting of 50 wireless devices and connecting 12 buildings with another 30 small structures. In addition, Michael upgraded a network backbone of 36 devices over those 12 buildings, including upgrading a central cloud-based management platform for the entire MAN.

Michael is a skilled network architect, network administrator, Identity Management Solution provider and all-around IT automation professional.

## Interesting Tidbit

Michael volunteers as an instructor for disabled skiers.

## Certifications
