

Outsourced HR

Overview

A Complete Solution for All Your HR Needs.

Not ready to manage your own HR department or administrator? Going through an organizational transition? A fully outsourced HR solution could be right for you. We combine years of real-world HR experience to offer custom solutions tailored to your unique business needs.

High-Touch Consulting Plus Cloud-Based Technology.

We know that every business has its own set of strengths and challenges, and that one size does not fit all. We pride ourselves on building close client relationships and creating solutions that streamline business functions and empower your workforce to manage their own needs.

We work with you to align HR functions and business goals – setting the stage for sustainable growth. A few examples include, but are not limited to:

- Consulting onsite and virtually, with a premier San Francisco advertising agency for three months, managing all HR functions during a search for their next full time HR Director.
- Partnering closely with the executive and local management teams at a national retail chain, to provide ongoing remote support for day-to-day HR operations and other strategic initiatives.
- Supporting a Bay Area compound management firm with local HR needs. Working within the framework of their parent organization — on-site and virtually — to manage their local HR functions.
- Providing HR management and recruiting services for a high-tech Silicon Valley startup, taking the company from 3 to 24 employees before securing a permanent HR Director for the organization.
