

Risk Assurance

Overview

At BPM we believe that understanding and managing risk is a key driver of increased stakeholder value. Through our tailored end-to-end solutions designed to fit your needs, we help you control exposure to risks while reaping the benefits of a strategic risk-based approach to business management. As your company grows, so do the associated risks. Whether it's financial, operational, regulatory or technological risks, BPM's Risk Assurance and Advisory Group is here to help you uncover opportunities and reduce unwanted surprises.

The pertinent objective of Risk Assurance & Advisory Services team is to consistently deliver high quality, distinctive services to our clients aligned with stakeholder needs and expectations. Together with our Information Technology Audit and Compliance Group, we provide comprehensive risk assurance counsel to emerging growth, late stage, private and public companies.

Our team has extensive experience in Internal Audit, Sarbanes-Oxley (SOX) readiness and implementation, Close process optimization, IT audit including SSAE 18 (formerly SSAE 16, SAS 70), IT compliance, PCI, ISO 27001 and information security.
